**Are you ready to go on an adventure
with the Azpazaz Bunch today, and
watch them as they all fly away?**

**Come join them as they start the
count down, to fly their amazing
machines all over town.**

They go up.

They go down.

**They can land
on the ground.**

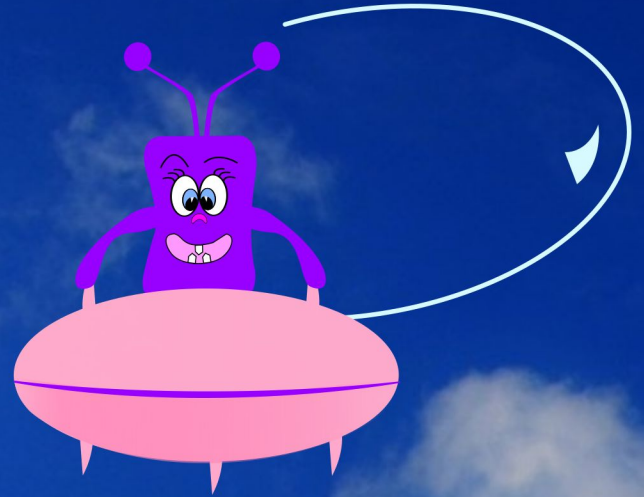

**And sometimes they
get goofy and go
around and around.**

With tops up...

or tops down,

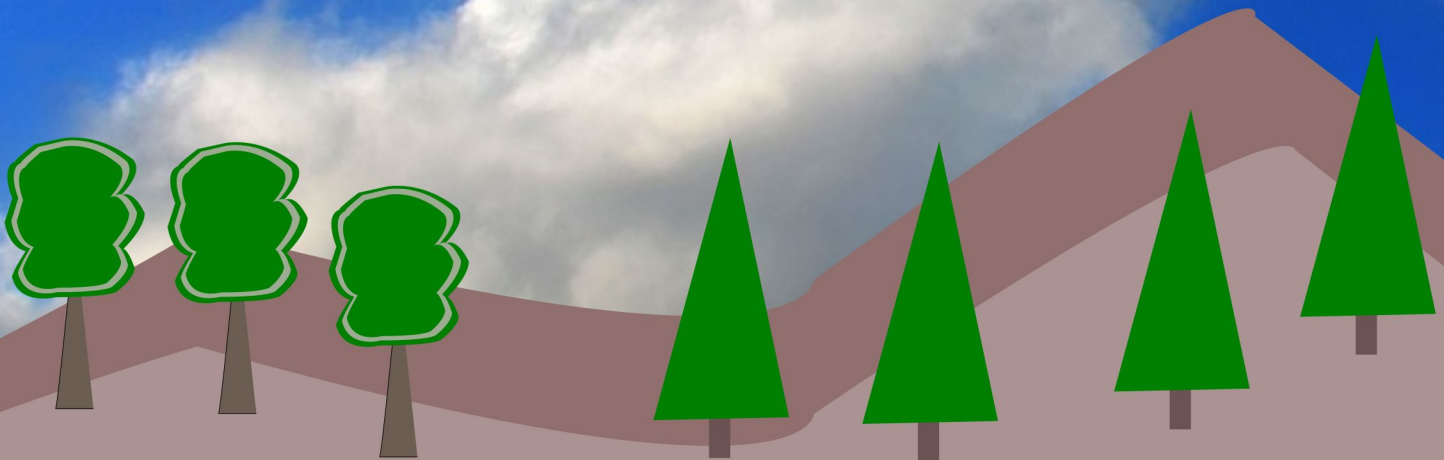

or just left on the ground.

**They can still fly high
to the top of the sky.**

**They go flying around in
the clouds one by one...**

**Those Akroozers are amazing
and they have so much fun.**

**They can fly up above
the clouds in the sky...**

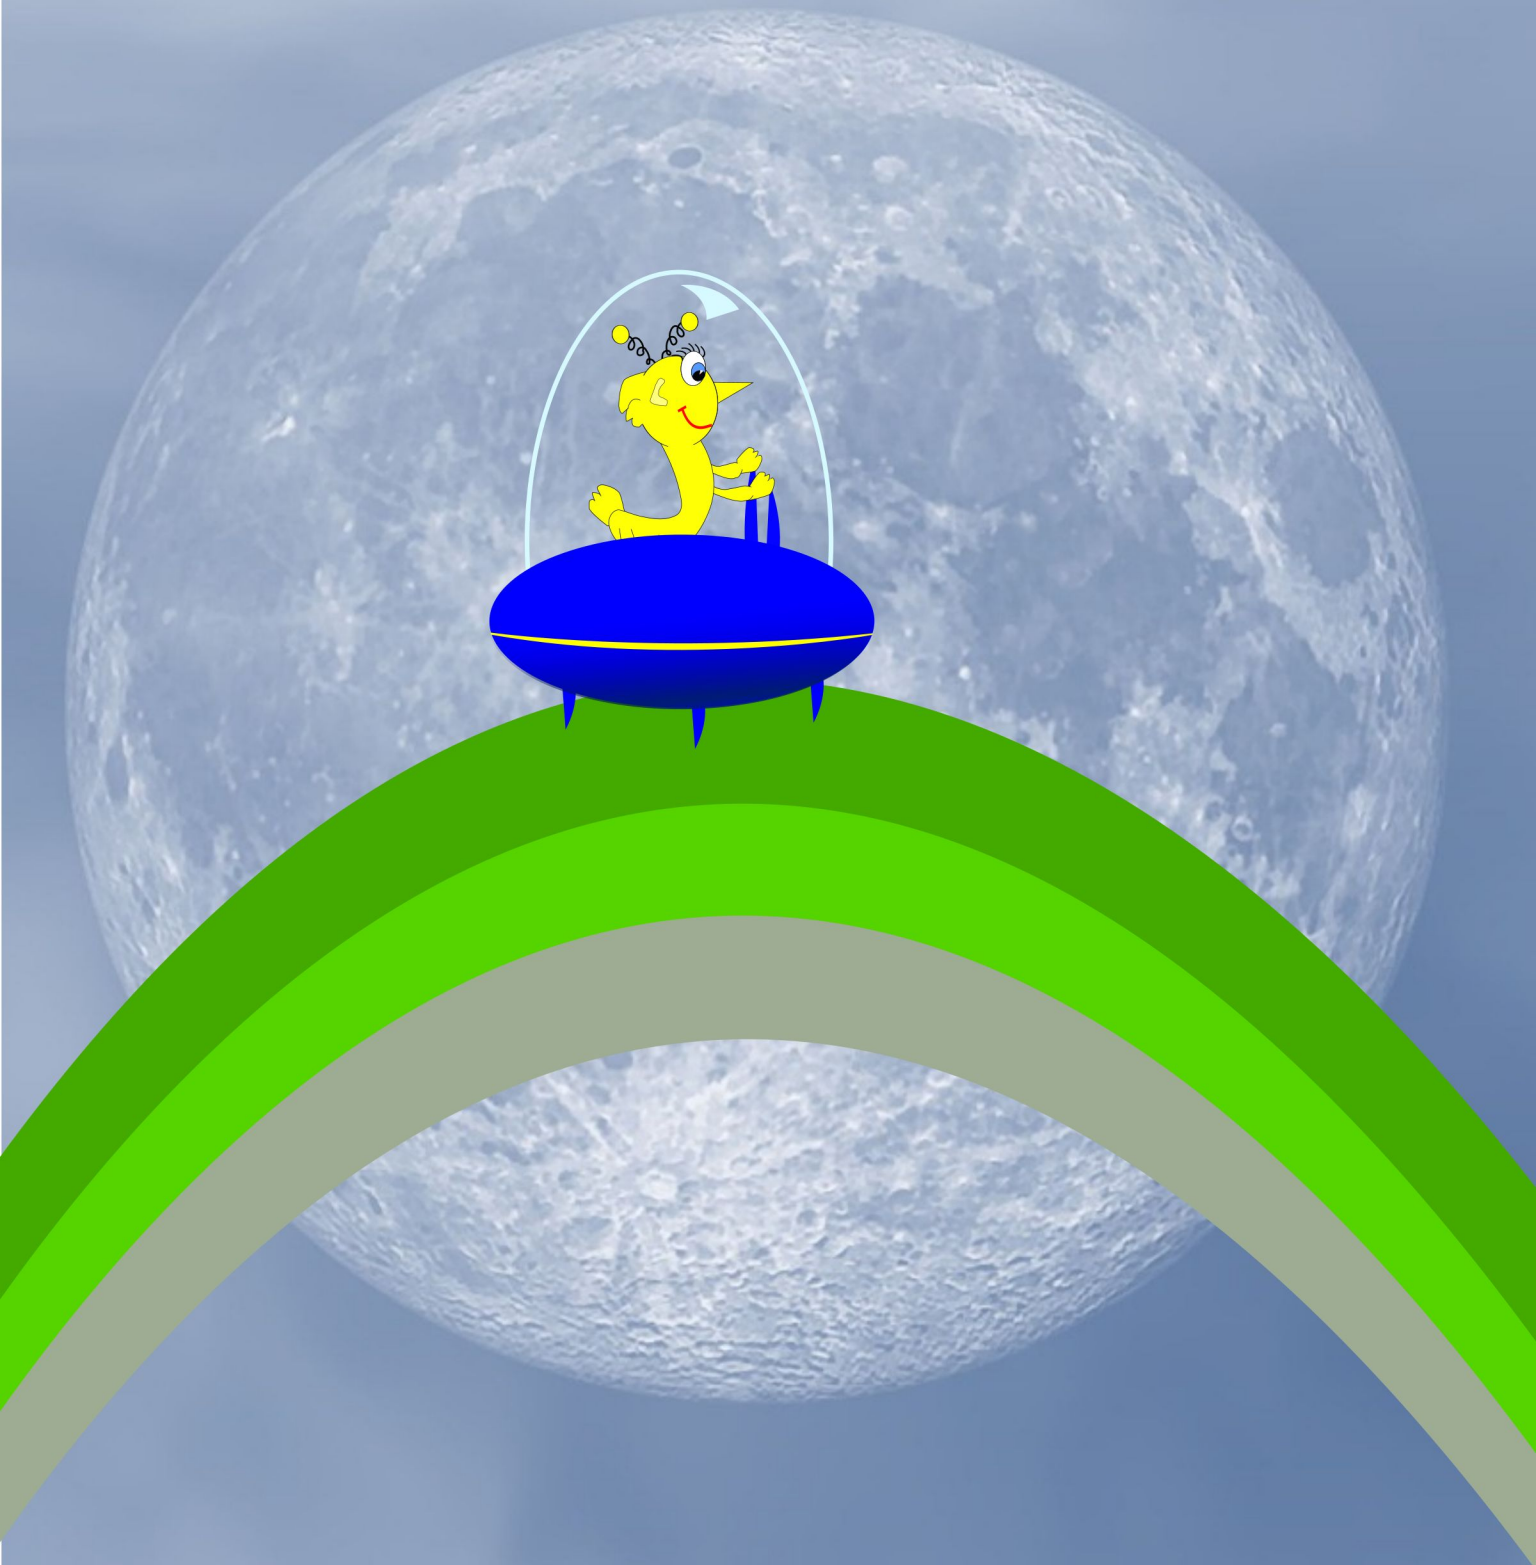

**and there's not really much
these crazy guys won't try.**

**They go fast; they go slow,
up high and down low.**

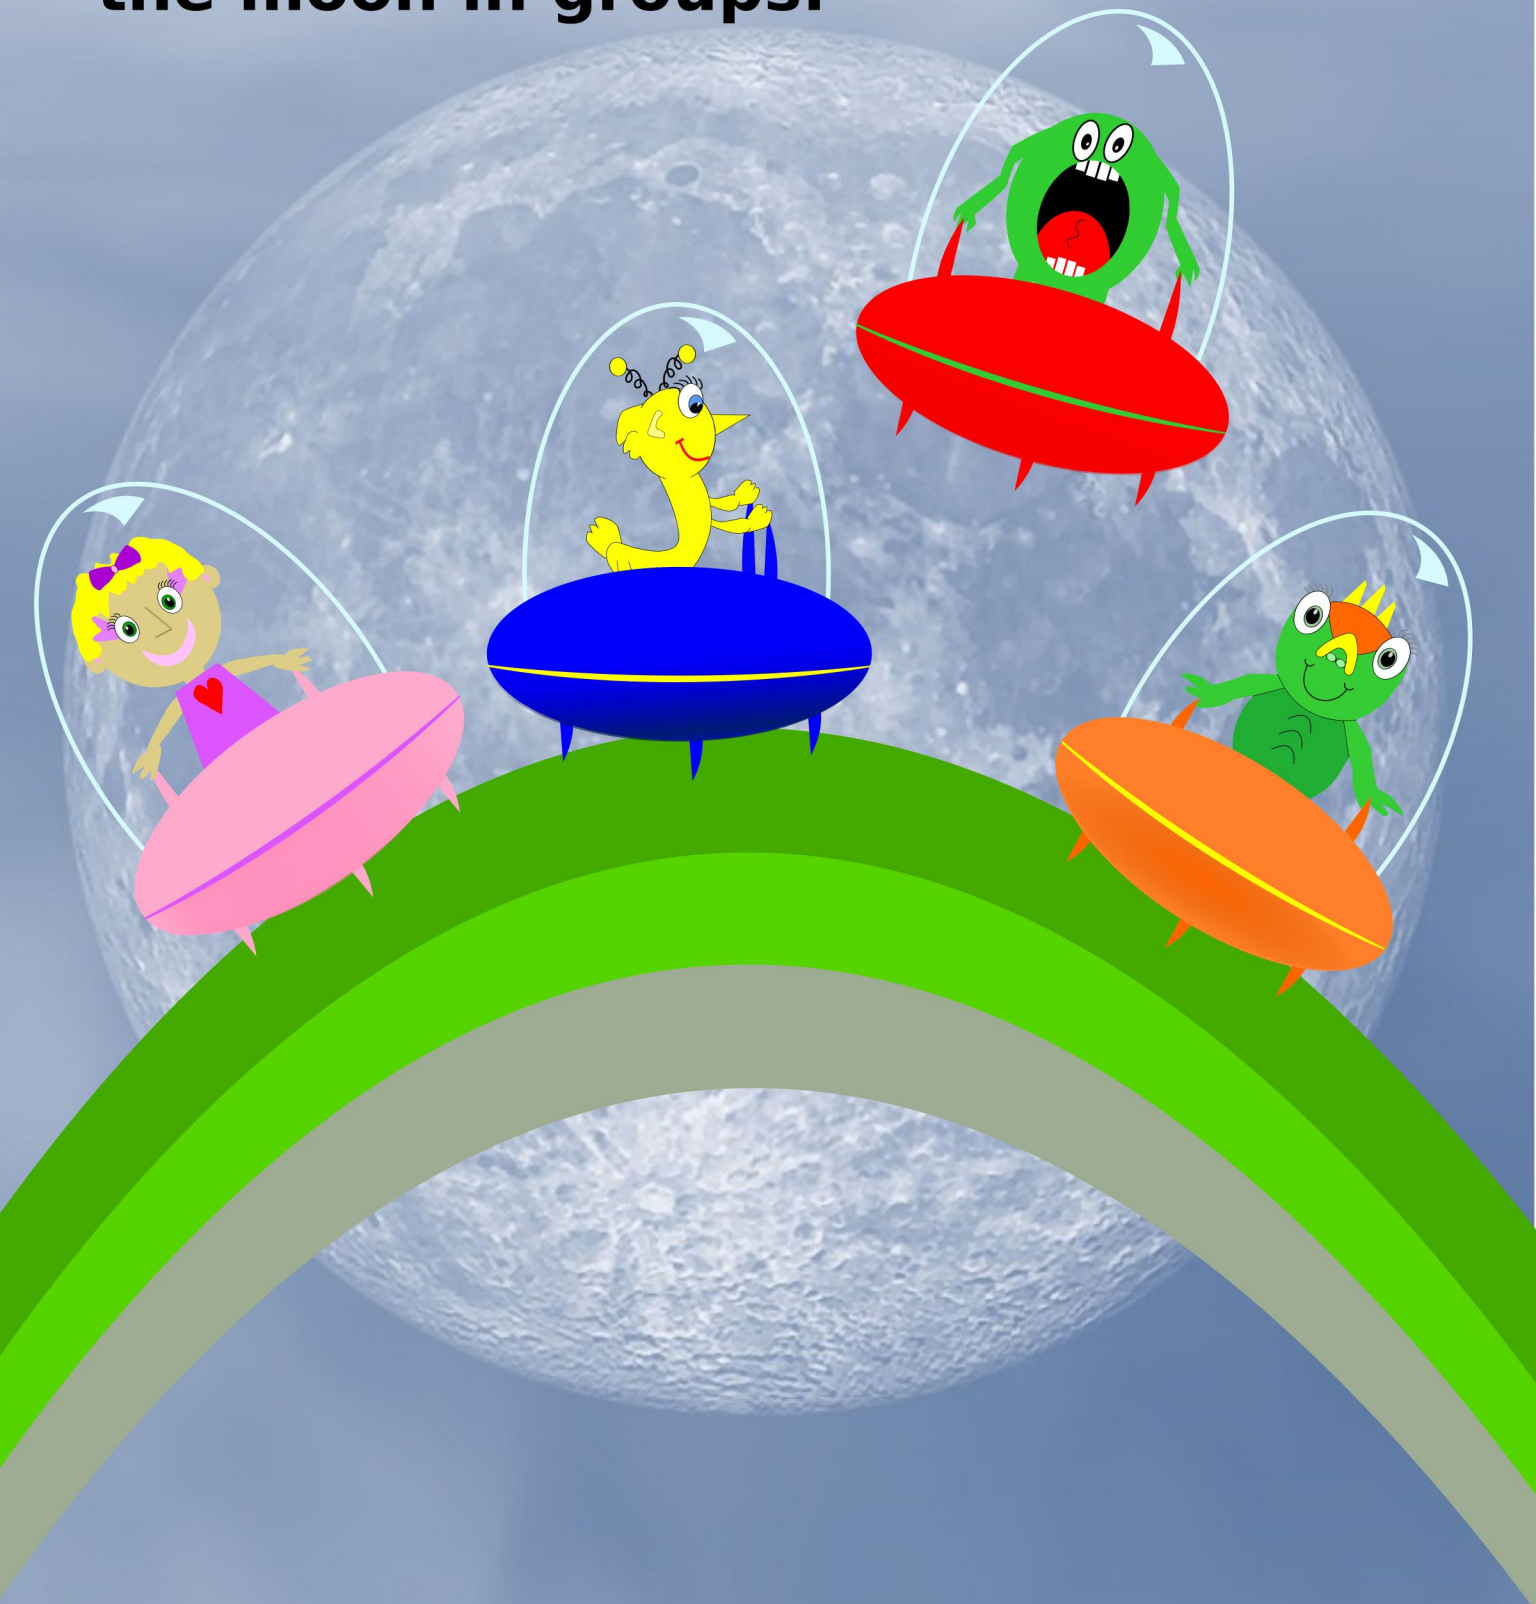

**And they always have
fun wherever they go.**

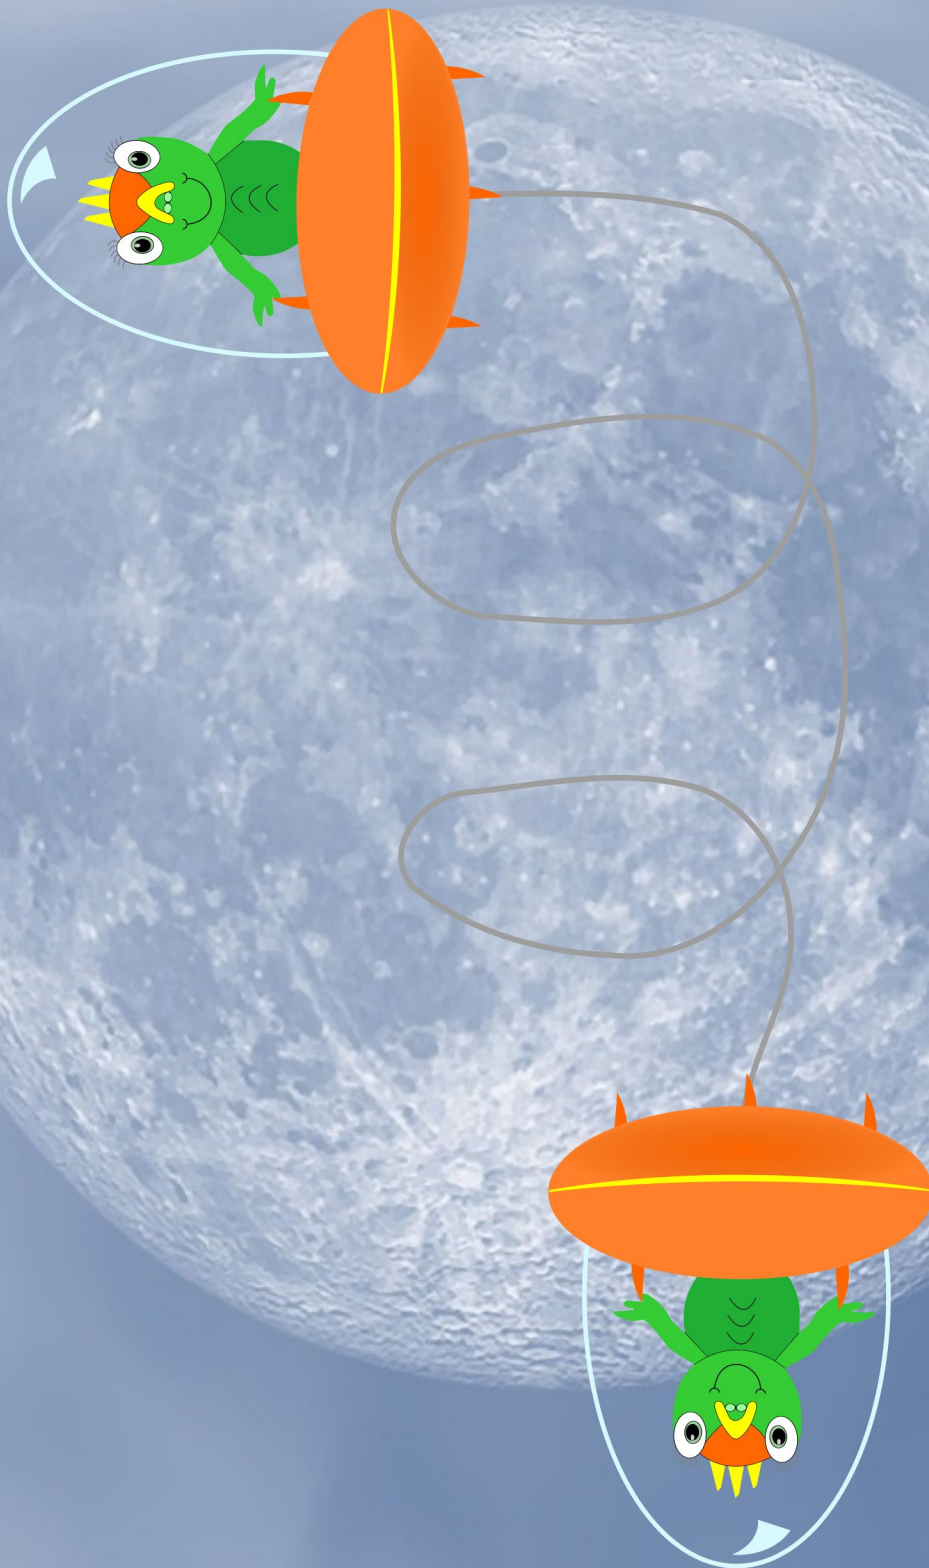

Sometimes they like to fly all alone.

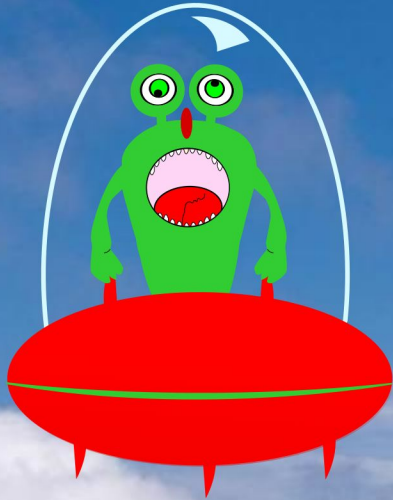

**At times they fly around
the moon in groups.**

Sometimes they like to do loop D loops.

They go up high, flying over the land.

**These flying machines are
for the daring and grand.**

The Akroozierz are buoyant and can float on the lake. These machines are awesome and that's no mistake.

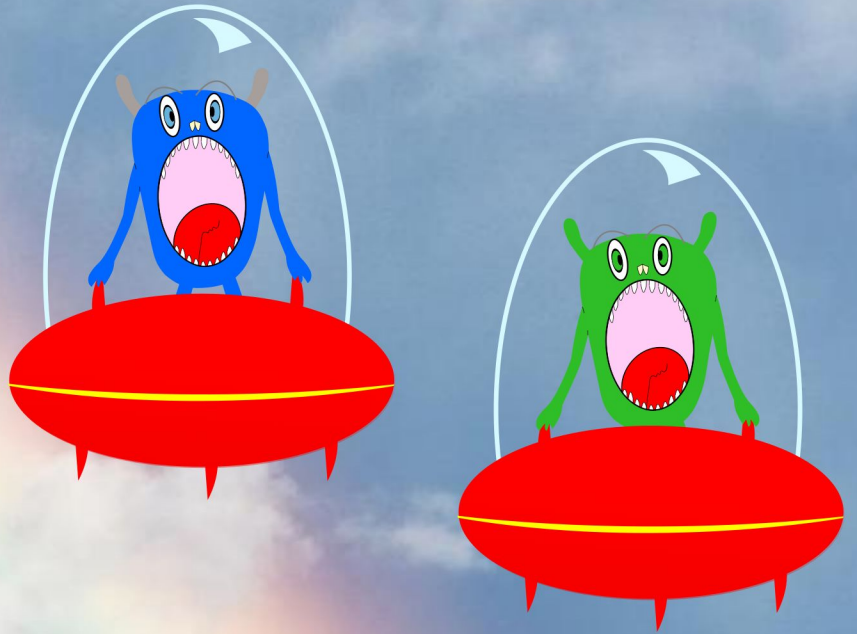

They rise up from the ground,

and float over the lake.

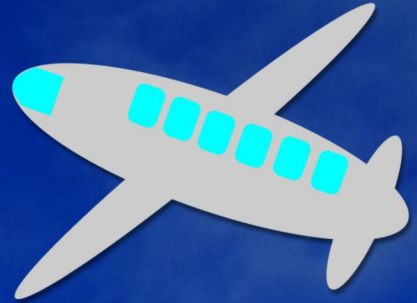

You would think they would get nervous for goodness sake.

**They fly above the rainbow...
it's fun to watch them go.**

**They love to see the scenery
and put on quite a show.**

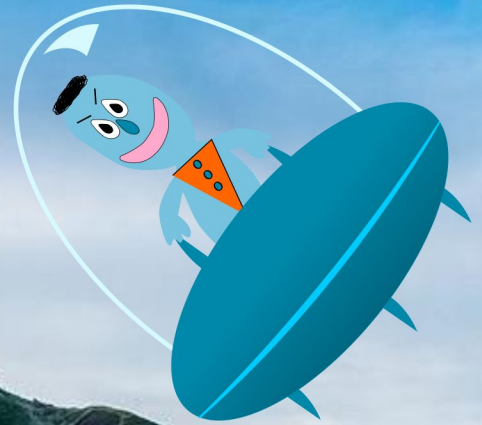

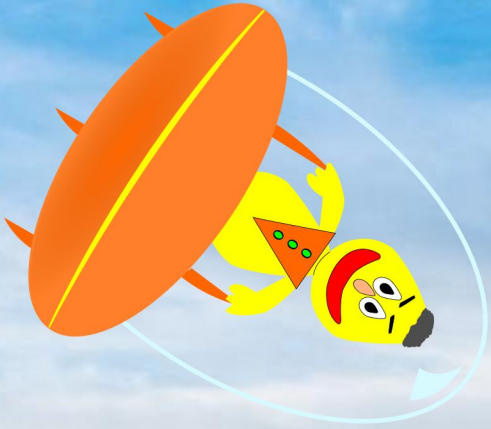

**They go flying up above the
clouds, up so high in the sky...**

**And when airplanes go
by they smile and say hi.**

**It's amazing as wild as
they get, they survive.**

**But if they don't fly
they don't feel alive.**

**They are speedy and quick
you should see how they lift,**

**They are such cool super hero's
and really quite swift.**

**They love to fly all through
the day, because they have
so much fun when they
laugh and play.**

If an Akroozer breaks down there's no need to fret. Cause fixing these cars is as easy as it gets.

Just take off the panel, just simply unscrew it. Cause to fix the motors you magically glue it.

These four super hero's are out all night and all day... to keep people safe from bad guy's gone astray.

But they can fly forever without one drop of gas. Cause the Akroozerz are amazing and run on trash.

How cool would that be to fly with no cash?

**To the top of the sky
they go flying away,**

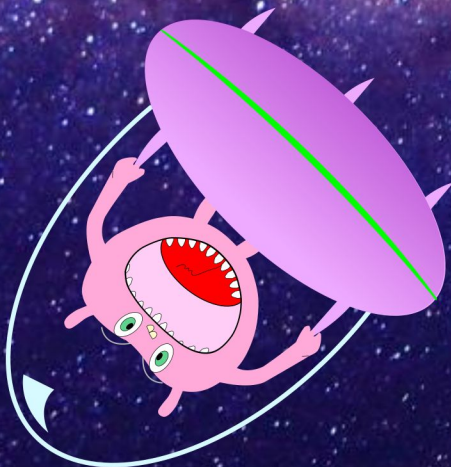

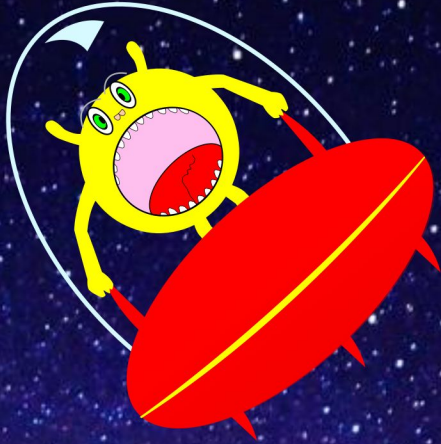

**they fly through the night
and all through the day.**

**At night they can fly with
their lights all aglow,**

**if you watch them fly
they will put on a show.**

**They can twirl and spin
through the sky and
be bright.**

It's so cool to watch them fly at night.

**They go near,
they go far,
they can fly
around the stars,**

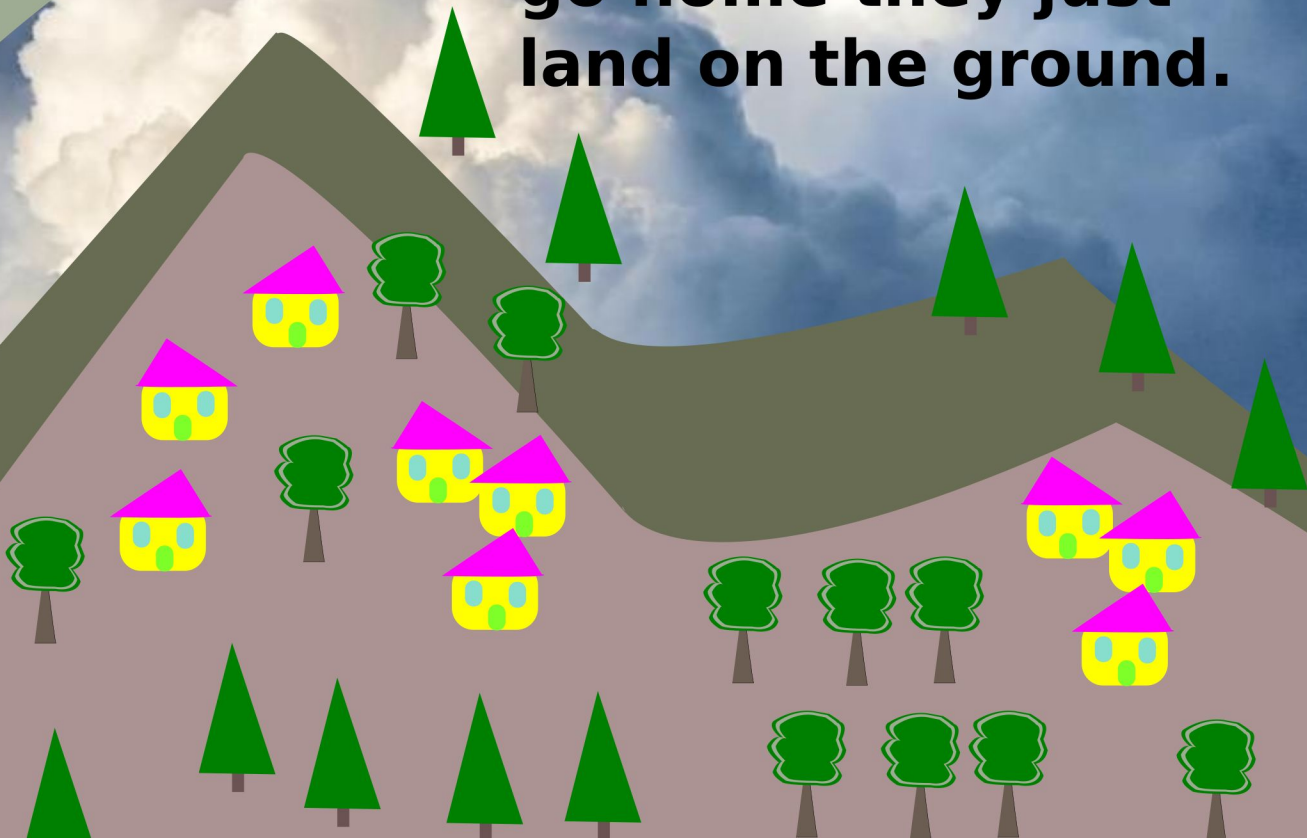

**It's amazing to watch
the Akroozer cars.**

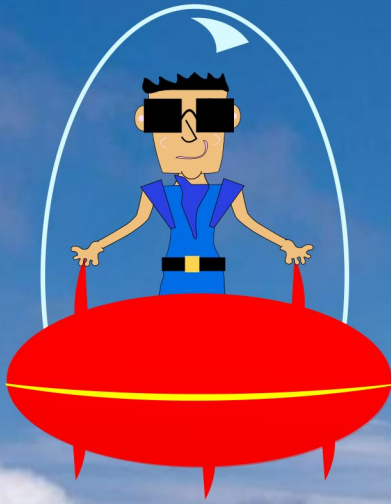

**They jump and they bounce,
and they spring around town.**

**When they want to
go home they just
land on the ground.**

**They can float high
above the mountains
and into space.**

**They love to take it at
a slow steady pace.**

They love to park under the trees.

**When they are ready
to rest, they sit in the
shade. They will be
ready to fly again
soon if you please.**

**They can fly super
fast, even pass a jet...**

**No one has been able
to beat them yet.**

**Across the world,
they win every race...**

**They fly around town
and in outer space.**

They can float or fly to the top of the sky, or take you for a ride if you are willing to try.

**The Akroozierz are speedy,
they are really quite grand.**

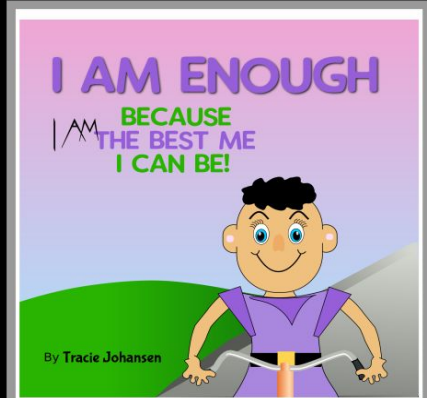

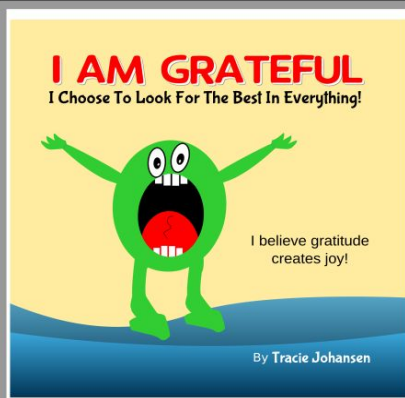

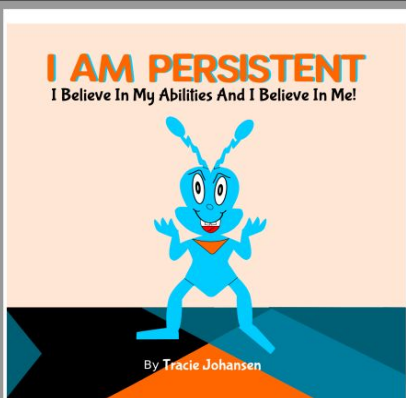

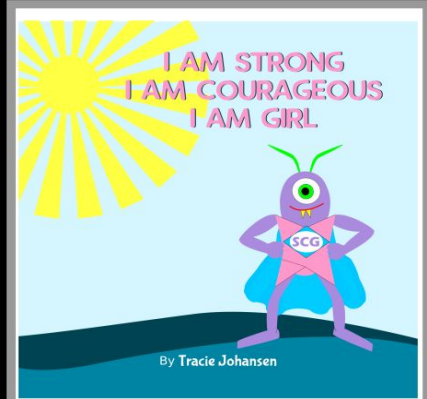

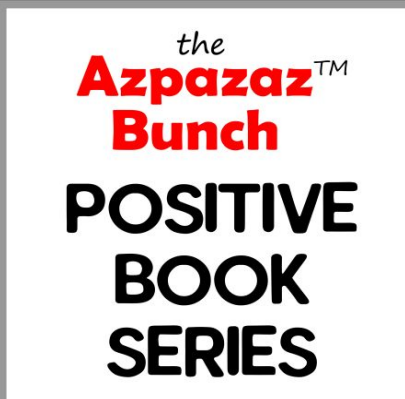

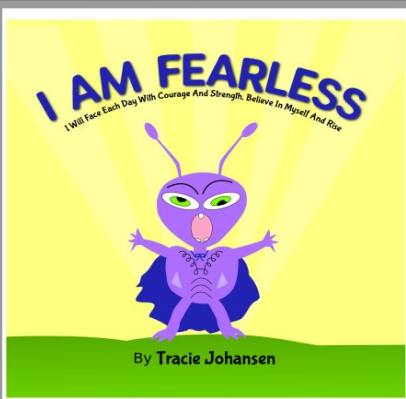

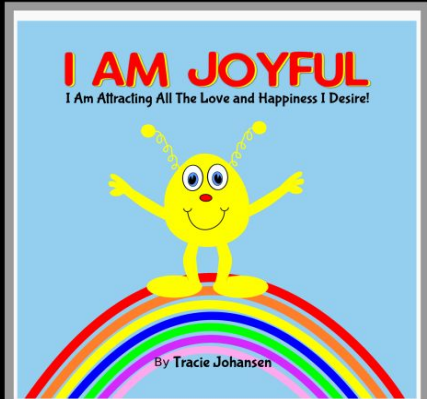

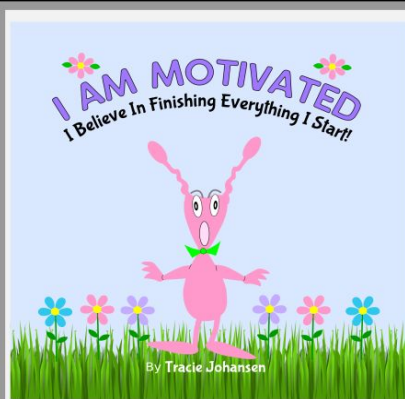

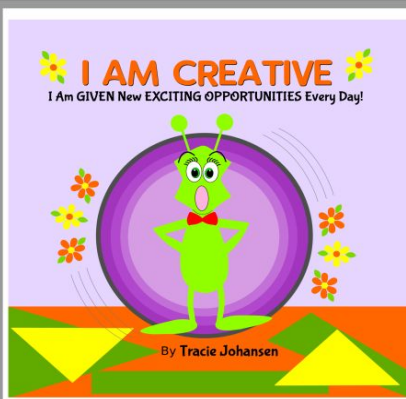

**They can fly all around
this amazing land.**

**They go crazy and spin
and go all over space,**

**When they all get together
they love to go race.**
